

## About HGR

Dedicated in connecting routes and delivering better logistic solutions since 1982, our company HGR primarily stepped in the logistics industry with full truck load. Over time we've successfully made our mark in the field of warehousing as well as cold chain supply.

Starting off with only one warehouse in Ahmedabad, today we hold more than 20-30,000 sq ft in majority of the A and B tier cities of India.

Our service includes warehousing and inventory management covering even the niche areas of India.

alongwith hassle free door-to-door delivery services pan India.

Currently we are working with all the blue chip MNC companies of India which fall in sectors like Pharma , Automotive, FMGC, Electronics with thorough expertise.

We believe in providing cost efficient and the best quality services for all our clients.

## Our presence

Technologically advanced infra enabled warehouses Pan India over 1 mn sq ft

More than 30 locations all across India and the strongest delivery reach in the North, West and South.

Over 100+ customers spanning across focused Industry sector especially in Pharma, Automobile, FMCG and Lubricants

Highly equipped warehouses that have technology enabled inventory management softwares and mobile apps

High measures for anti-theft security

## Our vision

To be a warehousing, logistics as well as a cold chain supply service firm that customers can always rely upon and establish a high value to them through excellence in contract logistics, warehousing solutions and its execution

Becoming a one stop destination for all the various services of a customer

Our aim is to cater to the majority of the MNCs of India, contributing in their growth stories and helping to reach the right products to the right customers at the right time.

Cutting down the costs as well as becoming more technologically advanced and reducing manual intervention.

## Our mission

To help grow customer satisfaction and customer loyalty percentage over 95%.

To increase the customer retention percentage in logistics and warehousing from 1 year to more than 3 years with consistent quality service that is backed up by technology which will aid in making transportation and inventory management faster.

Our mission is to support our customers and provide promised quality service today and tomorrow.
