- Carrying over 21,04,677 Metric Tonnes cargo per annum
- Moving over 14.5 Cr Kms annually
- Multimodal transport

## **LOAD MANAGEMENT SERVICES**

With a view to deliver services efficiently, we rely on a number of factors, such as coordination among teams through every process, precise and regular communication among workforce and the management, technical expertise, time management, financial efficacy, and safe modus operandi. At Inland World Logistics, we offer the following load management services:

### **SUNDRY/CONSOLIDATED**

Since inception, IWL holds a significant market share in sundry transportation segment. We provide optimal solutions to manage consignments of our multiple clients in an efficient and cost effective way.

### **EXPRESS CARGO**

A pioneer in express distribution, IWL continues to raise the bar in innovation. We were among the first to introduce time sensitive services even before the existence of formal express cargo service.

### **FULL TRUCK SERVICES**

To our clients, we offer seamless FTL movements for their cargo within India and SAARC countries. Our services are categorised as – Open-body trucking and Closed-body (Containerised) trucking. And for handling both the requirements, we have a dedicated fleet of vehicles of various capacities- 16 metric tonnes, 21 metric tonnes and higher.

### **ODC AND SUPER ODC TRANSPORTATION**

Whether heavy, large or unconventional consignments, be rest assured. You can expect timely and safe delivery of your goods, at any location across the country.

### **PROJECT CARGO**

At IWL, we offer turnkey solutions related to logistics which cover the transportations, handling, warehousing, ODC movements, crane unloading and other necessary civil works to ensure seamless logistics during the setup of a project.

## CONCOR

Container Corporation of India Ltd. (CONCOR) is a Navratna Public Sector Undertaking under the ministry of Indian Railways.

Its core business is characterized by three distinct activities- Cargo Carrier, Terminal & CFS operator and a Warehouse operator.

Started in November 1989 with 7 Inland Container Depots, we've extended to a network of total 80 terminals of which 14 are export-import container depots, 8 strategic tie-ups and 22 exclusive domestic container depots and as many as 36 terminals perform the combined role of domestic as well as international terminals throughout India.

## RAIL

Inland group currently offers VPH/VPU Full and Part load wagon service, goods train 'BCN/BOXN/BCNA' service, container service via CONCOR (full rake & part rake) to North East, East & South India. We facilitate speedy movement of goods from point A to B anywhere across India. The minimum requirement for Full rake 42 wagon is 2730 MT and Full rake holding 80 containers is 1800MT.

## COASTAL SHIPPING

Owing to its natural geography, the Indian sub-continent offers a promising future for short-sea and coastal trade. With our fleet of vessels, we ship to all major ports in the West, South and East coast of the Indian subcontinent with an assurance of minimizing the cost and time of your supply chain. We offer customized solutions catering to varied needs. From safer movement of goods with large parcels, over dimensional cargo, to more economical mode for break bulk cargo; we make it possible.

## GOING BEYOND BOUNDARIES

Inland World Logistics Pvt. Ltd. started its Nepal business in the month of April 2014 with a small Hydro power project Upper Madi situated in Madi river in Pokhra (Nepal).

Currently we are one of the leading transporters of Nepal consignment from Kolkata and are handling a volume of approximate 200 to 300 truck per month. We are also engaged in freight export shipment for Turkey from Nepal and have several hydro projects to our credit, Upper Madi, Hetuda, Dhalkebar, Trisuli 1 & 2 to name a few.

We stand tall as the first company to transport 80MT single consignment to Nepal. We are also the first to transport 23'x23'x4' weight 78MT to project site in Nepal.
