Medical Record Storage

Medical Record Storage

Medical records are the document that explains all detail about the patient's history, clinical findings, diagnostic test results, pre and postoperative care, patient's progress and medication. If written correctly, notes will support the doctor about the correctness of treatment. In spite of knowing the importance of proper record keeping in India, it is still in the initial stages. Medical records are the one of the most important aspect on which practically almost every medico-legal battle is won or lost. We design and offer comprehensive yet space saving hard copy medical record storing solution to every needy hospital. Our products are patented for its technical features which no other manufacturer offers. The thoughtful design of the product ensures maximum safety for the operators.
