

Selective Pallet Racking

Reliable – Safe – Highly Customizable

Modular

Versatile

Scalable

About Us

Godrej Storage Solutions is a part of the renowned Godrej group, a global conglomerate with businesses ranging from consumer products to aerospace engineering. We are a pioneer, visionary and market leader since last 6 decades in the field of warehousing storage systems in India. With innovation, adaptability and reliability as our core strength, we have created more than 200 million square feet of state-of-the-art storage systems for various sectors ranging from E-commerce to 3PL since the beginning of this century.

Our culture of continuous learning coupled with decades of experience in the field of intralogistics has enabled us to design best-in-class solution to serve all storage needs.

About the product

Our Selective Pallet Racking offers a unique quality of Selective Accessibility, effectively allowing you to store and retrieve various SKUs in a highly independent, organised and systematic manner.

We believe in delivering simplicity through innovation while placing special emphasis on product ergonomics. Our Selective Pallet Racking Solutions breathe life into your space, delivering 100% accessibility to each pallet. The system is designed so that a single pallet can be accessed without upsetting any other pallet on the system.

Selective Pallet Racking is best suited for a large variety of SKUs that demand individual traceability and handling. The high versatility that Selective Pallet Racking offers coupled with our large portfolio of accessories makes it an ideal solution for sectors as diverse as aerospace to FMCG and E-commerce.

APPLICATIONS

- 3PL (Third Party Logistics)
- Automobile/ Auto ancillaries
- Chemicals
- Defence
- E-Commerce
- Energy/ Power
- Engineering
- Food & Beverages
- Paper/ Packing
- Pharmaceuticals
- Railways/ Ports
- Textiles/ Apparels

FEATURES

- ♦ 100% selectivity and traceability offering quick access to a large range of SKUs
- ♦ High level of reconfigurability enables ease of installation and relocation
- ♦ High adaptability to varying load size. Adjustable beam level to achieve changes as per pallet height or load
- ♦ Wide range of beam and upright sections
- ♦ Wide range of accessories to support various applications
- ♦ Flexibility to be configured based on the available height and layout
- ♦ High adaptability to any type of material handling systems
- ♦ Lower forklift or pallet handling costs
- ♦ Achieve high levels of stock rotation with easy and efficient stock management.

Basic Elements

1. Base Plate
2. Upright
3. Beam
4. Bracing
5. Row Connector
6. Tie Beam
7. Instructions

CONFIGURATIONS

Accessories

8. Pallet Support Bar
9. Drum Cradle
10. Guided PSB
11. Fork Entry Bar
12. Aisle Placard
13. Mesh Decking
14. Grating Decking
15. Panel Decking

Safety Elements

16. Row Guard
17. Column Guard
18. Upright Protector
19. Pallet Stopper
20. Mesh Cladding

Our accumulated knowledge coupled with cutting edge design tools help us design and analyse each component ensuring reliability

Well equipped and dedicated in-house lab enables us to conduct experiments and perform validation to comply with all global standards

THE GODREJ ADVANTAGE

State-of-the-art, high-capacity automated manufacturing facility

Comprehensive in-house testing facility for assured quality

Tested seismic racking

13 branches & 75+ channel partners serving all locations across the country

WHY GODREJ?

**YOUR
RELIABLE
PARTNER**

Best in Quality
&
Innovative Design

of Steel
