VENTILATION (HVAC) DIVISION

BLOWER SYSTEM & BLOWER BALANCING

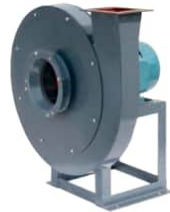

We are manufacturer and suppliers of high quality Centrifugal Fan (High and Medium Pressure) and Axial Flow Fan

Features:

- Centrifugal Blower Fans are made in a wide range of impeller sizes varying from 200 to 2750mm diameter having air-handling capacities of 500 CMH to 3,00,000 CMH, while the pressure developed by the fan could be as high as 2300 mm WG.
- Onside Dynamic Blower Balancing

Centrifugal Fan (Medium Pressure)

Centrifugal Fan (High Pressure)

Axial Flow Fan

VENTILATION (HVAC) DIVISION

FUME EXTRACTION & AIR PURIFICATION SYSTEM

Tower Air Purifier

Designed For: Heavy Industrial | Light Industrial | Schools | Body shops
Wood dusts | Dirty environments | Textile shops

FEATURES

- 100% recirculating from contaminated air to Clean Air
- Robust industrial air purifier
- Plug & Play Unit
- Low operating Cost
- High filtration efficiency up to 0.3 microns
- Mobile on wheels
- German technology
- HEPA-H-13 Filter
- Automatic filter cleaning
- Activated carbon filter on exhaust for odour removal
- Real time Air Quality Index (AQI) monitoring

VENTILATION (HVAC) DIVISION

DUST COLLECTOR SYSTEM

SCRUBBER / CYCLONE

We are manufacturers of various type of Dust Collector Systems like cyclone dust collector, mechanical dust collector and pulse jet dust collector. The dust collection systems have a wide application in various industries such as Automobile, Auto Parts Ancillary Units, Rubber Industry, Chemical Industry, Boilers etc. The units can also be customized as per client specifications.

Features: -

- Capacities of 40 to 75,000+ m³/h
- Cross-flow and counter-flow options
- Custom designed systems
- Options to be retrofitted with current equipment fully automated
- In-house designed and manufactured
- Portable options and sizes available

PLASTIC DIVISION- LUGGAGE BAG WHEEL

Plastic Wheels for Luggage Bags

We have the facilities of Injection Molding , Assembly line & Paint Booth in our Plant.
We design & Supply wheel for Luggage Bags as per customer requirement.

Facilities

- Design
- Painting
- Assembly
- Riveting

PAINT SHOP DIVISION

Paint Shop Liquid & Powder Coating

We designing, Manufacturing & Installation/Commissioning of paint shop as per customer requirements,

Features:

- Modular design compatible with every type of Spraying Application.
- Superior construction: booth is constructed by nut-bolt.
- Easy and simple maintenance.
- Powder recovery through Single cyclone, Multi cyclone and Cartridge filters.

INDUSTRY
WE SERVE 

Shot Blast Repair & Maintenance

Paint Shop Repair & Maintenance

Electrical panel repair & retrofitting

Old Machine Retrofitting

Blower Installation & Commissioning

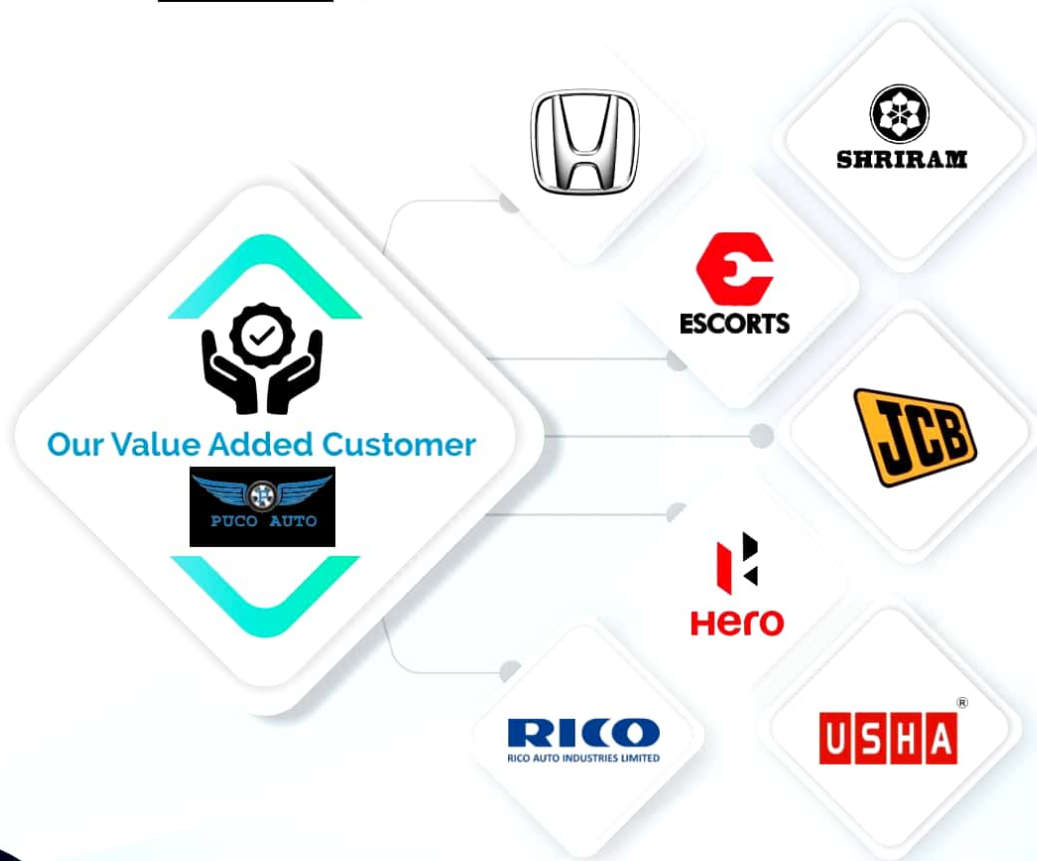

Repairing & Fabricating Square Ducting at site

Onsite Blower Balancing and Vibration Checking
