

MANUFACTURERS OF CORRUGATED BOXES

ABOUT TAYAL

Tayal Packaging Private Limited is corrugated boxes manufacturing firm. It's Managing Director Mr. Jay Rajesh Agarwal, the man with broad vision and a pleasing personality took the initiative of starting the industry. He believes that anything is possible and with that vision he promoted the company in 2019 and the growing demand of his product rightly proved that packaging is an endurable product of the consumers.

Tayal Packaging Private Limited is committed to helping customers get the best value possible from their packaging, especially in these challenging times. We continue to work hard to stabilize and where possible, even reduce customer's costs per pack. We are also working with our customers to help them minimize any 'over-spec packaging' in an effort to save money and reduce the bottom line.

Tayal Packaging Private Limited operate a Just In Time (JIT) production style in order to remain as flexible as possible while reducing lead times and stock holding. The success of Tayal Packaging Private Limited can be attributed to the strong emphasis we place on customer service and providing a fast turnaround of orders. Located in Chakan, Pune, Tayal Packaging Private Limited is ideally placed to quickly dispatch to the outlying areas.

PRODUCT DESCRIPTION

Corrugated cardboard is a stiff, strong, and light weight material made up of three/five/seven layers of brown Kraft paper. No other packaging material offers the benefits of corrugated boxes, maximizes protection while being space efficient; it is outstandingly versatile and has a fast design-to-delivery turn around. Add to this the economic benefits arising from increased production efficiency in the industry, and you can see why corrugated packaging is hard to beat. A vast programmer of research and development is leading to more economic products and more responsive customer service. Above all the industry listens whether you need to improve food preservation, protect electronic devices, or find more economic ways to distribute and store products, the corrugated packaging industry continues to discover new and surprising answers.

These are the key reasons why corrugated packaging is so popular. Wherever it can be used, it usually is more than two thirds of the world's retailed commodities are packed and transported in- it more than all other types of packaging.

QUALITY AND MAINTENANCE

Quality being our first motto, we consistently work hard on improving and delivering a better product to satisfy the need of our valued customer.

Quality and Maintenance Strategy Quality Department The manufactured good should be as per customer demand and market condition. The quality of product depends on all the process and operations perform during manufacturing process. As a quality of product is high the customer satisfaction is increase and market value of industry is enhanced. Creative packaging is an industry which believes in customer fulfilment with quality of product and process. Quality Strategy - The firm is a mass production based firm there for quality strategy is a Batch inspection Process. All dimensional and strength parameters are checked with compare according to requirement of customers.

We have our very own testing facility and Lab which ensures 100% quality of our products
