ABOUT US

- **iSmart Solutions** formed newly. It was initially started as a freelancing company and now We wish to expand our services across PAN India and at present we have office in Bangalore and alliances all over india.
- **iSmart Solutions** a leading firm which associated with class 1 Electrical & data and voice Contractors & Engineers. With more than 2 decade years of experience in Electrical installations & Engineering services.
- We at **iSmart Solutions** thrive to continue, to deliver cost effective solutions by providing innovation and value engineering on all our projects. Providing a service, based on customer satisfaction with a commitment to the further development of our staff and working practices which align to end user expectations.

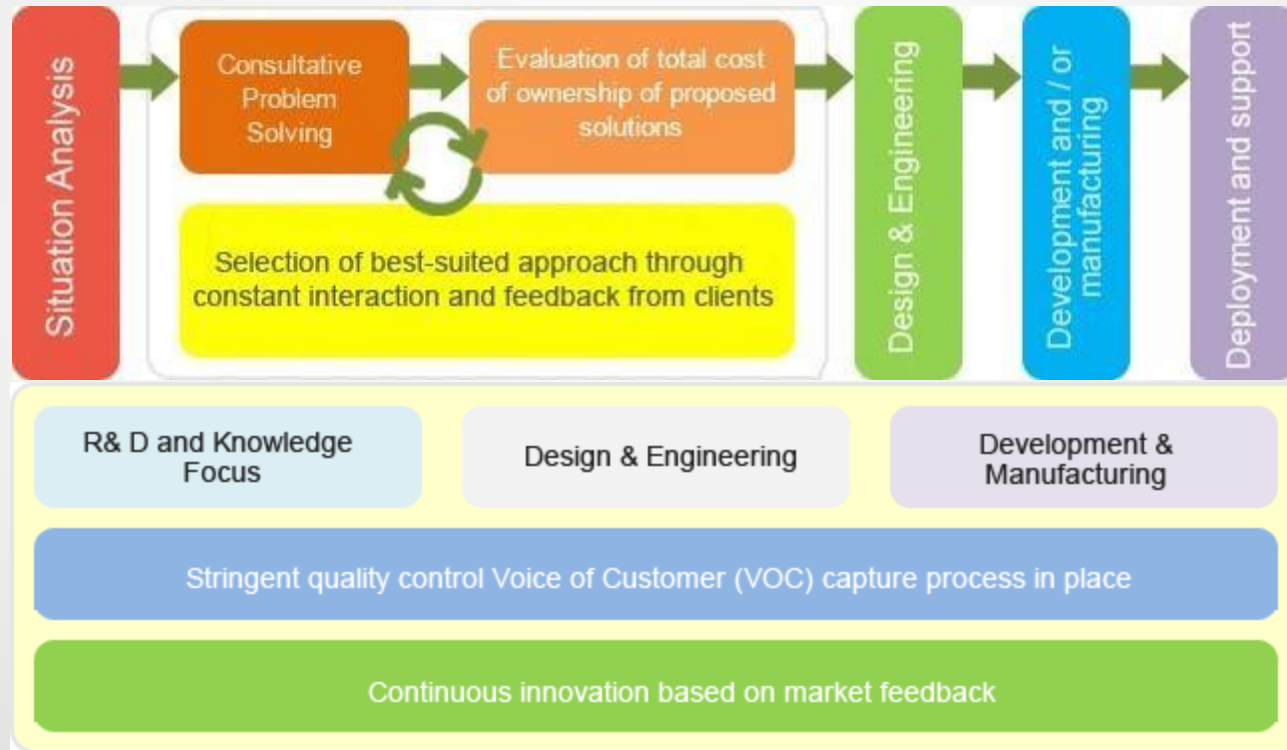

SECTORS

CLIENTELE

OUR PROCESS

OUR INDUSTRIAL SECURITY EXPERIENCE

Products

- Security Surveillance Cameras
- Home/Office Automation Systems
- Fire/smoke/gas Leak Detectors
- Multi-apartment Video Door Phones
- Attendance & Access Control Systems
- Perimeter Surveillance Systems
- Guard Monitoring Systems
- Metal Detectors (DFMDs & HHMDs)
- Boom Barriers
- Vehicle Tracking System
- Asset Tracking System
- Automatic Gates (Turn-stile, Slide etc..)
- Fire & Intruder safety products
- Public Addressing System

Other Industrial Process Products

- Products for Business process and parameter controls like temperature, pressure etc... Custom-built for specific needs
- Cement Bag Counting System

Services

- Site Survey & Security Project Planning
- Wireless network design, implementation; integrating products with existing network
- OFC Cabling – Laying, Splicing, integrating with network
- Installing new security product network and/or integrating products with existing network

OUR BRAND ASSOCIATION

SECURITY PRODUCTS

Security Surveillance Cameras

One of the best and easiest ways to monitor your property is with the wide range of security surveillance cameras available to meet specific security needs.

Attendance & Access Control Systems

Access Control System allows authorized people into a restricted area via identification through Magnetic/RFID/Smart Cards with contact/ contact less card Readers, biometric Readers, IRIS Readers.

Perimeter Surveillance Systems

Utilizing Passive Infrared (PIR) sensor technology and telescope-like, precision mirror glass optics, long-range detector provides early warning of intrusions by detecting the slightest temperature change when someone passes through a perimeter security beam into the protected area. Detects intruders crawling, walking, or running at speeds from 0.7 to 17 ft/s.

SECURITY PRODUCTS CONTD...

Guard Monitoring System

➤ Guard Monitoring system is a cost-effective way of monitoring security guards on site. The idea is to use the latest technology to monitor the guard from a control room continuously to ensure that the guard is awake, alert and doing regular patrols as required.

Video Door Phone

Video Door Phone is a high tech, electronic security product that allows one to see and speak to a visitor before opening a door. It is also equipped with a remote control

Metal Detectors

Metal detectors are used to detect both ferrous and nonferrous metals concealed on a person. These security metal detector are widely used in airports, courtrooms, custom, bank, jeweler units, defense establishments, malls, and other public places.

ACCESS CONTROL

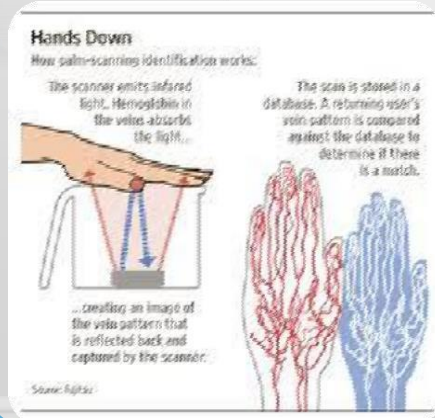

iSmart Solutions Provides Access Control Solution from high end to low end according to requirement of the client, we have solution for card and biometric based access control, brands we deal with Siemens, Honeywell, GE, Bosch, Spectra, ESSL, Syris, HID range of product.

PALM VEIN SCANNER

Palm vein Scanner is most secure and most perfect secured solution for access control and time & attendance the forgery is not possible. It is best suited for Industries where other biometrics does not work due to difficult conditions.

TURNSTILE SOLUTION

We Have Turnstile solution for

- Half Gate and Full Gate
- Flap Barrier as per end user requirement

Same can be connected to existing Access Control Solution And also automatic sliding doors

SECURITY PRODUCTS

CONT.....

Boom Barriers

Boom barriers can easily control access into areas where unauthorized vehicles or persons are not permitted. Other applications include parking garages, commercial buildings, apartments, hospitals and industries, each supplied with individual control systems.

Automatic Gates

Whether it's for a business or residence, an automatic gate is a great feature to keep family and property safe. They allow access to those allowed inside while closing tight to keep others Out.

Vehicle Tracking System

A vehicle tracking system consists of a device placed in a car, truck, boat, RV, ATV or other vehicles which works with tracking Software or a tracking service to locate the vehicle if it's lost or stolen.

INTRUSION OR BURGLAR ALARM

We have Complete solution in this segment Wired / Wireless and remotely operated solution, brands we deal with

- DSC (Canada)
- Securico (India)
- Honeywell (USA)
- Texecom (UK)

SECURITY PRODUCTS

CONT.....

Public Addressing System

It is a centralized amplifier based system that's been designed to provide voice paging and to broadcast alarm tone during emergencies. The system can transmit alarm tone and routine voice messages, from a central location, to all or selected areas of the facility, in a reliable and safe manner, by the use of loudspeakers.

Building Automation System

Building Automation Systems (BAS) optimize the start-up and performance of the heating, Outline ventilating and air conditioning (HVAC) equipment and alarm systems. BAS greatly increases the interaction of mechanical subsystems within a building, improve occupant comfort, lower energy use and allow off-site building Control.

Asset Tracking System

Asset Tracking System is designed to control and manage mobile and fixed assets. This system centrally manages; what assets you have, where they are, who uses them, and all costs associated to the items. ATS has a comprehensive asset tracking solution with extensive bar coding and numerous Radio Frequency Identification (RFID) technologies and functions.

LICENSE PLATE RECOGNITION SOFTWARE

LICENCE PLATE RECOGNITION SOFTWARE WHICH HELPS TO TRACK THE DETAILS OF THE VEHICLE WITH IP CAMERAS IN EACH ENTRY AND EXIT

SECURITY PRODUCTS CONT.....

Gas Leak Detector

Gas Leak Detection Systems have been designed with an advanced electronic technology which is user friendly and with no reset or mute options for a fail safe operation at low cost.

The range of gases that can be detected are LPG, CNG, Acetylene and other Hydro Carbons, besides Hydrogen, Ammonia, Carbon Monoxide, Carbon Di Oxide, Solvent Vapors.

Fire Safety Systems

To exceed customer & market expectation & satisfaction, provide a fire safe solution by utilizing the most advanced & time tested technologies at the most competitive prices which are totally value for money.

The nature of our works is Design, Supplying, Installing, Commissioning and Maintaining Turn Key Based Fire Fighting systems such as,

Wet & Dry Riser Fire Hydrant Systems.

Sprinkler and Spray Systems.

Smoke, Heat & Flame Detection Systems.

Gas Based Fire Suppression Systems. (CO2-FM-200-Halon alternatives)

Dry Powder & FOAM based Flooding Systems.

Manual Fire Alarm with Public Addressable (P/A) Systems.

RF /RFID SOLUTION

RFID is the technology works on Radio Frequency technology, RFID tags, a technology once limited to tracking cattle, are tracking consumer products worldwide. Many manufacturers use the tags to track the location of each product they make from the time it's made until it's pulled off the shelf and tossed in a shopping cart, we at am IT FISSION can support you in supply of hardware and SDK for the same.

VIDEO DOOR PHONE AND HOME AUTOMATION SYSTEM

We can secure your home sweet home & dearer ones with this simple solution Brands

- Honeywell
- CP+
- Genway
- Alba
- Commax.

PUBLIC ADDRESS SYSTEM & Music system

We are Specialized in Public Address System, we integrate Bosch, Philips, & Ahuja Systems, we can design the public address system as per the clients need.

Brands available

- 1. Bosch**
- 2. EV**
- 3. Ahuja**
- 4. WBOX**
- 5. Yamaha**

BAGGAGE SCANNER

Baggage Scanner are widely finds its valuable *applications* at very high ...
The system combines the *advantage* of highly efficient solid state...

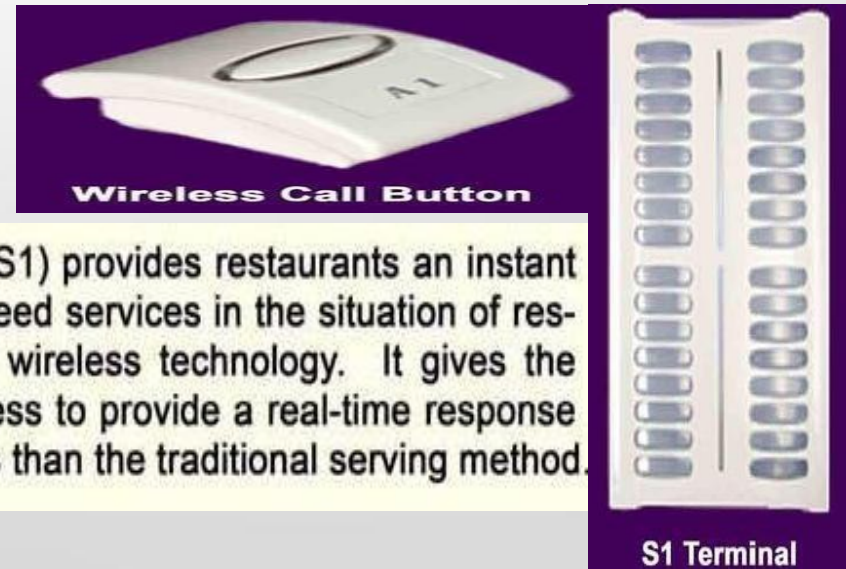

SECURITY PRODUCTS contd...

Mobile Signal Jammer.

To Jam mobile signals in no disturbance areas as in convention halls, meeting, room, operation theatres, and other areas wherein signals needed to Be blocked.

Wireless Attendant Calling System.

Wireless Attendant Calling System (S1) provides restaurants an instant calling service (for customers who need services in the situation of restaurants or any servicing area) via wireless technology. It gives the power of arranging waiter and waitress to provide a real-time response for customer's needs in lesser efforts than the traditional serving method.

Thermal screening Products

A **thermographic camera** (also called an **infrared camera** or **thermal imaging camera** or **thermal imager**) is a device that creates an image using infrared radiation, similar to a common camera that forms an image using visible light. Instead of the 400– 700 nanometer range of the visible light camera, infrared cameras are sensitive to wavelengths from about 1,000 nm (1 μm) to about 14,000 nm (14 μm). The practice of capturing and analyzing the data they provide is called Thermography.

OEM & DISTRIBUTION Association

We are Proud To Announce that we are association with Sole Distributors for Cp- Plus Multi Apartment Videodoor Phones & one of the distributors of Hikvision VDP part of Video door phone standalone kits For Entire Karnataka.
